

Energy Management Policy

The management of Dong Fang Offshore Co., Ltd. is continuously striving to improve energy performance as required by the ISO 50001 international energy management standard. To achieve sustainable, low-carbon operations, the company is committed to:

- Continuously improving its energy management system.
- Continuously improving energy management performance.
- Sharing information on energy performance with external stakeholders.

The company aims to achieve sustainable, low-carbon operations and continuously improves.

To achieve this goal, the company:

- Complies with applicable energy regulations and other requirements.
- Ensures access to information and resources necessary to achieve goals and energy targets.
- Influences the procurement of energy-efficient products and services.
- Supports design activities that consider energy performance improvements.

This policy has the full support of top management, is publicly available, and applies to all employees of the company.
