

KNIFE POLICY

The use of clasp or sheath knives is to be avoided, and wherever possible an alternative cutting tool must be used. Where a knife is considered to be the safest and most appropriate tool, it must be used with care and safety gloves with the appropriate cut protection. Stop and assess the risk.

Knives are to have round-ended blades to minimize stabbing injuries. Divers' knives (underwater use), galley knives (galley use) and cutlery (galley use) are excluded from this hardware requirement.

People are not permitted to bring their own knives to work. Appropriate cutting tools will be maintained and provided at the worksite. Cutting tools and safety knives should be inspected prior to use, any damage reported and a replacement sourced.
